

SaaS Customer Support Knowledge Base (Advanced)

Overview: This document contains detailed policies for a SaaS platform used for testing AI-based RAG systems.

Subscription Plans:

The platform offers Free, Basic, Pro, and Enterprise plans.

- Free: Limited features, no priority support.
- Basic: Monthly billing, access to core features.
- Pro: Advanced analytics, API access, priority support.
- Enterprise: Custom pricing, dedicated account manager, SLA guarantees.

Billing Cycles:

Users can choose between monthly and annual billing. Annual billing provides a 15% discount.

Payment Methods:

Supported methods include credit card, debit card, UPI, and net banking.

Failed Payments:

If payment fails, retries occur after 24, 48, and 72 hours. After 3 failures, the account is downgraded.

Refund Policy (Detailed):

- Full refund within 7 days if usage is below 10%.
- 50% refund within 14 days for partial usage.
- No refunds after 14 days unless a system failure is proven.
- Enterprise plans are non-refundable but can be credited.
- Refunds are processed within 5–10 business days.

Cancellation Policy:

Users can cancel anytime. Access remains until end of billing cycle.

Support & SLA:

- Critical issues: 2 hours response
- High priority: 6 hours
- Normal: 24 hours

Escalation Policy:

Issues unresolved within SLA are escalated to senior engineers.

Critical outages trigger incident management protocols.

Common Issues:

- Login failures due to incorrect password
- Payment failures due to bank restrictions
- API rate limit exceeded

API Usage:

API keys are generated via dashboard.

Rate limit: 1000 requests/minute (Pro), 5000 (Enterprise).

Data Security:

All data is encrypted with AES-256. Platform complies with GDPR and SOC2.

AI Chatbot (RAG System):

The chatbot retrieves relevant chunks from this knowledge base and generates contextual responses.

Knowledge Base Usage:

This document is used for semantic search and retrieval in AI systems.
